A SIGNIPICANT INCIDENT. An incident occurred yesterday afternoon in Court Square, going to show how Secession, as I have mentioned, is often worn here merely as a mask. Two well-known and influential crizens, regarded in Memphis as prominent Secessionists, were atanding in the center of the square, looking at the bast of Jackson, and the inscription beneath it, "The Federal Union, it must be preserved." Pointing to the attempted obliteration of the words, "Federal Union," by some anonymous scounded, one of the parties, the supposed-to-be stronger Secessionist of the two, said: "The d—d villain who did that ought to be harged higher than Haman!" ARRESTS OF REBELS. A number of arrests were made yesterday of parties who have expressed violent public sympathy with Jeff. Davis, and condemnation of the Federal Government, and have abased the National troops, with other kindred offenses. At the corners of the princatal streets are stationed Union soldiers, the Provost guard doing police daty, to prevent outbreaks, note, or absorderly conduct of any sort. SECESSION CAVALRY AND UNION TROOPS. Rebel cavalry are reported to be scouling this server. Scholor, within a tew miles of the city.	Union paper yet—good in the sense of ontwardly carnest—because it will discover, if it has not already discovered, that loyally alone can in the future be made to pay. The Acatanche still tends gradually but steadily to Unionism, and contains every day what people are fond of terming a "conservative" article—that is, a moderate though decidedly Pro-Slavery pean, divested of the slang of Billing-gute and showed five Yankees. As soon as Dr. Septha Foolkes can gracefully glide into the full and swift and strong current of Unionism flowing in and by and through Tennessee as unmistitiably as the great Mississippi washes its western borders, be will be found sailing jubilantly upon the bright and glass me waters. THE WIGHT RIVER EXPEDITION. The two iron gunbouts—Mound City and St. Louis—and the woosen gunbout L xington, left early yesterday morning for White River, with the intention of supplying Gen. Cartis's arms with provisions and opening the way for him to Mempha. The vessels will give particular attention to the Pebel transports taken up that stream during the past two months, and endeavor to discover the gunboat Mallory, lying in an unfinished state somewhere in that veinity. The Memphas people call her the Missispipi Virginia (Merrimac), and there is little question of her formidable character. It is generally believed in the Flotilla that the expedition will be very successful, if not in captures, at least in the destruction of Robel property. An incident occurred yesterday afternoon in Court Staturs, going to show how Secession, as I have mentioned, is often worn here merely as a mask. Two well-known and influential criticous, regarded in Memphis as prominent Secessionists, were standing in the center of the square, looking it the bust of Jackson, and the inscription beneath it. "The Federal Union, it must be preserved." Pointing to the temped obliteration of the words, "Federal Union" by some amonymous scoundrel, one of the parties, the supposed-to-be stronger Secessionist of the two, said: "The d—d villain who did that ought to be harged bigher than Haman!" ARRESTS OF REPELS. A number of arrests were made yesterday of partnes who have expressed violent public sympathy with Jeff. Davis, and condemnation of the Federal Government, and have abused the National troops, with other kindred offenses. At the corners of the prine all streets are stationed Union soldiers, the Provost guard deieg police daty, to prevent outbrenks, note, or deorderly conduct of any sort. SECESSION CAVALRY AND UNION TROOPS. It is generally believed in the Flottilla that the expedition will be very successful, if not in captures, at least in the destruction of Rebel property. Our vessels may have a fight with Pinckney's beats, but it is hardly probable, as they are proposity below the point the expedition will reach. BEMAINS OF THE KEREL FLEET. A number of the Boheminus made a little trip yesterday afternoon to President's Island, and on their way discovered the relies of Montgomery's late fleet in the upright smode-stack of the Jeff. Thompson, and the upturned wheel of the Beauregard. Private advices from Washington indicate that the new currency bill will be promptly passed, probably with an amendment allowing \$25,000,000 to be issued of denominations less than \$5. Thempson's Reporter has the following remarks upon the subject of this enlargement of Government currency: We have devoted much at our ressling space to the letter of Mr. Chase, asking Compress for an extraording his powers to milespet the demandments extraorded in Section 10 and the subject of the southern of the construction of the construction of milespet subject in minimal extraord of the construction of interest words. 	seried it, however, some three weeks ago, and though he put forth his plea of British birthright, he was informed he was surject to the same laws that governed Tennesseeans, and hie sugar departed from him forever. THE DESTRUCTION OF SOUTHERN STAFLES. The Southern papers have for some time been telling as that the planters in the Gulf States were proud to sacrifice their cotton, and sugar, and molasses to the spirit of Confederate Independence, and have endoursed those not le martyrs to the skies for their glorious disinterestedness. The truth is, as I learn from various trustworthy sources, that the planters submitted to the destruction of their property from compulsion, and that they detested had still detest the tyranny that impoverished them. As an include, a planter living some twenty miles before, had all his cotton, valued at \$20,000, destroyed for the benefit of the "Confederacy," and he is this day one of its most bliter opponents, and lives, he cays, with the assurance of seeing it entirely overthrown as a revenge for the irreparable injury it has se wantonly and so unwisely indicted upon him. The planter was in the city and witnessed the gunboat fight, and was delighted with its result; declaring he was regain by the destruction of the Rebol fact for all his lowes. PSELDO SECESSIONISTS. Many of the most blatent Secessionists are at heart for the Union, as I have been privately assured, and I have met persons to-day who declared themselves eternally wended to the fortunes and fact of the 'out, who would, to-morrow, after better acquaintance, confess their secret sympathy with the United States. Every one says: "We have been living under a reign of terror here. You have no idea of its extent. We were afraid to speak our feelings or our views, almost to think; and we have no idea of its extent. We were afraid to speak our feelings or have were from the tryanny imposed upon us. We are still discussion to the contract of the contract o	all sham. Those who refuse to take such an oath would for the most part violate it whenever their inchantion or their interest prompted them to do so. In regard to the shipping of goods, the oath is very likely to fail of its purpose, as suspected or implicated parties, desirous of sending articles North, can transfer them to others, and have them forwarded in the name of the latter. A SIGNIPIANT INCIDENT. An incident occurred yesterday afternoon in Court Squars, going to show how Secession, as I have mentloned, is often worn here merely as a mask. Two well-known and influential citizens, regarded in Memphis as prominent Secessionists, were standing in the center of the square, looking at the bustof Jackson, and the inscription beneath it. "The Federal Union, it must be preserved." Pointing to the attempted obliteration of the words, "Federal Union by some anonymous scoundrel, one of the parties, the supposed-to-be stronger Secessionist of the two, said: "The d—d villain who did that enght to be harged higher than Haman!" ARRESTS OF REFELS. A number of airests were made yesterday of parties who have expressed violent public sympathy with Jeff. Davis, and condemnation of the Federal Government, and have abused the National troops, with other kindred offenses. At the corners of the print@al streets are stationed Union soldiers, the Provost guard doing police daty, to prevent outbreaks, nots, or anorderly conduct of any sort. SECESSION CAVALRY AND UNION TROOPS. Rebel cavalry are reported to be scouling this county (Shelby), within a tew miles of the city, under the command of Col. Forrest, formerly a farmer, or, more properly, infanous negro-trader of this city, and some of the citizens hving on the autskins of the town are fearful of a raid from the enemy. There is little reason to be adarmed, as it is probable our troops—Gen. McClernand's division, it is said—will be here in a day or two. The Rebel scouting parties know this, and will carly profit be between themselves and the Northern soldiers. The	Union paper yet—good in the sense of ontwardly earnest—because it will discover, if it has not already discovered, that loyally alone can in the future be made to pay. The Avalanche still tends gradually but steadily to Unionism, and contains every day what people are fond of terming a "conservative" article—that is, a moderate though decidedly Pro-Slavery is an divested of the slang of Billing-gute and showed of the Yankees. As soon as Dr. Septha Foulkes can gracefully glide into the full and swift and strong current of Unionism flowing in and by and through Tennessee as unmistakably as the great Mississippi washes its western borders, be will be found sailing jubilantly upon the bright and glads are waters. The WRITE RIVER EXPEDITION. The two iron gunboats—Mound City and St. Louis—and the woesen gunboat Lexington, left early yesterday morning for White River, with the intention of supplying Gen. Carties arms with provisions and opening the way for him to Mempha. The vessels will give particular attention to the Echel transports taken up that stream during the past two months, and endeavor to discover the grubout Mallory, lying in an unfinished state somewhere in that veinity. The Memphis people call her the Missispip Virginia (Merrimac), and there is little question of her formidable cuaracter. It is generally believed in the Flottilla that the expedition will be very successful, if not in captures, at least in the destruction of Rebel property. Our vessels may have a fight with Pinckney's beats, but it is hardly probable, as they are proposity below the point the expedition will reach. BEMAINS OF THE KEREL FLEET.
